

On 9 November 2021, the world of apparel and textiles will meet in Antwerp, Belgium, for the 9th European Textiles and Apparel Convention, hosted by EURATEX. The event is organised back-to-back with the 36 Global Apparel convention, organised by IAF. Join us in Antwerp and book your ticket now.

COVID-19 has shaken the foundations of the textiles, apparel and fashion industry. Global supply chains have been disrupted, retailers are restructuring their sourcing options, consumer behaviour is changing. At the same time, the EU policy agenda focuses on a “green and digital transition”, leading to an impressive set of new regulations, strategies and programmes, including a dedicated EU Textiles Strategy.

To understand how these trends will impact on your industry, the European Confederation of Apparel and Textiles (EURATEX) organises a one-day [conference](#) on the theme “A new Paradigm for the European Textiles and Clothing Industry”.

The conference will include contributions from visionary leaders from European textiles and apparel, along with technical workshops on critical topics for our sector, such as traceability, chemicals strategy, textile waste recycling, skills, energy consumption and much more. A detailed agenda will be published in the next weeks, but you can already look at the general [programme](#).

Don't miss this opportunity and join us in Antwerp.
